Dr. Sir

Yours of 22d inst. is just to hand & I hasten to reply.

I find a small Bar #471 — 91.72 in the Safe which is the missing one & not the bar "C" as you suggested. This added to the weights you report makes 91.278" — a gain of .11 — and completes the deposit.

Enclosed find the Bar.

Regretting the mistake in packing but felicitating myself on the ease with which the difficulty is overcome, I am

Very Truly Yours,
